### 1st Year: Semester - I & II

### (Common to Applied Art and Painting)

Objectives		
Objectives		

The Foundation course of the four-year BNFA program is common for both painting and applied arts. This course emphasizes on a student's imaginative engagement with the world to understand visual elements and various principles of art. Students admitted to Fine Arts programs come from varied educational backgrounds and skill levels. They need fundamental and methodological training to improve their practical and analytical skills.

The primary focus in foundation course is on creating awareness in the students about the use of art materials and technical processes which are used in creating visual art and ideas.

### 1stYear: Semester – I (Common to Applied Art and Painting)

### KFA111: HISTORY AND APPRECIATION OF ART

### **Objectives**

This module is designed to weave the concept of Art in the mind of a student. It is very important to understand the nature of art and its scope in the factual world. Art as an expression of thoughts, ideas and communication needs to be understood to make a solid foundation for the course.

### **Desired outcome of the course**

From this module, student shall be able to understand the immensity and role of art in their daily life. It shall establish the concept of Art in their consciousness. Students shall be acquainted with art from an expansive viewpoint. They shall be able to comprehend the elements and principles of art.

### **Syllabus** Unit 1: What is Art What is art? What is the relationship between Art and the Artist? The basic concept of beauty that is involved in the creation of Art. Art as an essential part of the real world. $\square$ Art as a powerful medium of self-expression□ Unit 2: Art concepts Role of forms in art. Content and style as the essence of art. Meaning and definition of Iconography. Unit 3: Theme and purpose of art□ Role of art in the society $\Box$ Relationship between art and nature as a complement to each other Role of Imagination and fantasy as an important phenomenon for the creation of art

### <u>Unit 4: The Visual Elements</u>

	Lines
	Types of lines and their functions in art  Formation of shapes and their role in art
	Importance of Light and colour  ☐
×	Usage of tones and textures to create an effective body of art work
	Importance of space, time and motion in understanding art  ☐
<u>Unit</u> 5	5: Principles of Design in Art
	Definition and principles of design-o Balance o Proportion o Harmony o Emphasis o Rhythm
	Role of elements of design in creating an effective design
Evalu	nation Methodology
	Written test
	Assignments

### **KFA112: HINDI**

### **Objectives**

To enable the students to read and comprehend complex texts, write logical, coherent and grammatically correct Hindi.

### **Desired outcome of the course**

Students will be able to

Read, write, speak and comprehend Hindi.

### Unit-1:

- हिंदी व्याकरण
- संज्ञा, सर्वनाम, विशेषण, क्रिया, क्रियाविशेषण, कारक
- संधि, समास, उपसर्ग, प्रत्यय, पर्यायवाची, विलोमशब्द, मुहावरा, लोकोक्ति, अनेक शब्दों के एक शब्द

### Unit-2: पत्रलेखन

Unit-3: अंग्रेजी अनुच्छेदों का हिंदी में अभ्यास

Unit-4: निबंधलेखन

Unit-5: काव्यसंग्रह

- बादल राग सूर्यकांत त्रिपाठी 'निराला'
- अग्निपथ हरिवंश राय बच्चन -
- नदी के द्वीप सच्चिदानंद हीरानंद वात्स्यायन -'अज्ञेय'

### Unit-6: गद्यसंकलन

- बेटी का धन प्रेमचंद -
- गेहूं और गुलाब रामवृक्ष बेनीपुरी -
- धर्मयुद्ध यशपाल -

### **Evaluation Methodology**

- Test
- Assignment

### **KFA151: DESIGN**

### **Objectives**

Design is an arrangement of various forms and shapes for a specific purpose in a given space. It establishes the coordination of different forms with the available space in a harmonious way. Different articles, objects and shapes are used to create an arrangement and establish a relationship, which is pleasant to the eye of a viewer. During this module, student will be able to understand the concept of design, its elements and the principles involved in making a good design. This subject develops a sense of arrangement and movement in the mind of an artist.

### Desired outcome of the course

From this module, students will be able to understand the concept of design. They will be able to design, taking ideas from natural objects and their surroundings. They will learn different types of designs and their purpose in everyday life. They will be able to understand the quality of lines, shapes, forms and their behaviour when they are in proximity to each other. It will help students to create a sense of intuitive balance and rhythm with the help of designs. Students will be trained to use their eyes to see a good design. Their hand and eye will be synchronized and work in tandem to create any piece of art.

### **List of Practicals**

<u>Unit-1. Line</u>
Creation of different effects and moods using different types of lines Exercises of different kinds of line in a square format
<u>Unit 2. Forms</u>
Forms and their types, role of forms in design Exercises on creating a design in square format using basic geometrical forms
Unit 3. Design embedding within a form
Creation of a design with animal images Implanting the above design into basic forms such as triangles, squares and circles.
Unit 4. Design based on study of form objects
Using and overlapping of designs for creating interesting forms□

	Exercises to design using the different object available in the environment
<u>Unit 5</u>	Design based on study of nature
	Use of elements from nature to create a good design ☐ Exercises on arrangement of elements in a square format ☐
Evalu	ation Methodology
	Individual's daily performance□
×	Project Review: Mid Semester□
	Project Submission: End of the Semester

### **KFA152: Computer Graphics**

### **Objectives**

Computer is a basic tool used in modern world. It is important for the students to have a basic learning and usage of computers. This will create a foundation for future use of graphic application and professional career building. This learning is an asset for the artist to come at par with the modern technology. They should be able to learn and work on the computer with ease.

### **Desired outcome of the course**

From this module student will be able to understand computer technology used in the area of art. They will be able to operate computers and use them for their artistic purpose. They will learn the different types of basic software and graphic software, which are widely used for the graphical representation.

### **List of Practicals**

### Make a project file using diagram and text on following units

### <u>Unit 1: Introduction to Computers</u>

- Introduction to Computers
- Definition, Characteristics and history and evolution
- Types of computers and their Classification and application

• Components of Computers

### Unit 2: Hardware

- Hardware: Input/Output Devices, Hardware Optimization Processors, Ports, Cables
   Types of Storage Device, Backup Devices
- Memory, Cache, Display, Resolutions, Graphic Cards, VRAM

### Unit 3: Software and OS

- Introduction to Windows, Internet Explorer
- Introduction to OSX (Apple)
- Introduction to Graphic Software
- Window Accessories: Paint Brush, Notepad and WordPad

### Unit 4: Adobe Photoshop

- ADOBE PHOTOSHOP: Introduction to Photoshop new document, saving files, saving new and existing images, export, import, changing work canvas, rotating.
- Menu bar options
- Tool Bar Options (Move tool, hand tool, zoom tool. Pencil and pen tool, crop tool, magic wand, lasso and eraser tools. Type tool)
- Colors, Layers and Filters (Back ground and foreground, Eyedropper-colour sampler, erasing, blending modes, gradients, working with brushes, Burn-dodge-sponge, Blur-sharpen- smudge)
- Restoration of photos ((red eye tool, patch tool, clone stamp pattern stamp, spot healing brush tool, retouch tool, colour replacement tool).
- Photo enhancement and colour correction

### Do the following exercise

Exercise for configuring Display, Resolutions Exercise for Managing Files and Folders

Exercise for creating backups and using external storage

### **Evaluation Methodology**

Individual's daily performance

Project Review: Mid Semester

Project Submission: End of the Semester

### KFA153: GEOMETRICAL AND PERSPECTIVEDRAWING

### **Objectives**

Orthographic Projection is a way of drawing a 3D object from different perspectives. Usually a front, side and plane view are drawn so that a person looking at the drawing can perceive it from all the angles. Orthographic drawings are useful especially when a design has been developed to a stage where it is almost ready to manufacture. In this module student will be able to learn different types of geometrical planes and their usage. During this module student will be able to understand the concept of orthographic projections, their types, elements and principles involved. The course trains a student to present 3D visuals on 2D surfaces.

### Desired outcome of the course

From this module student will be able to understand the 2D and 3D projection. They will be able to draw orthographic projections of the objects available. They will learn the different types of planes and their purpose in professional and daily life. They will be able to understand the focal length, optics, projections, and their relationship with 2D objects.

### **List of Practicals**

Unit 1. Introduction to plane Geometry				
<b></b>	Plane, its types and purposes.  Historical background of geometrical planes.  Make a simple geometrical plane of an object  Make Multi view orthographic projection			
<u>Unit2</u>	. Orthographic projection			
	Meaning of orthographic projection Multi view orthographic projection and their need Role of focal point and focal length Relationship between optics and orthographic projection Making an orthographic projection of an object.			
Evalu	nation Methodology			
<b>*</b>	Individual's daily performance Project Review: Mid Semester  Project Submission: End of the Semester			

### KFA154: DRAWING□

### **Objectives**

Drawing is the basis of any art course. The subject aims at establishing hand-eye coordination while drawing any object. During this module, the students are trained to understand the importance of proportion while drawing. This subject develops the sense of line, space and volume in the mind of an artist.

### Desired outcome of the course

**List of Practicals** 

From this module student will be able to understand the concept of line. They will be able to draw the objects using different types of lines. Students exhibit capacity to create volume with the help of lines and draw with intuitive attitude. Synchronization of hand and eye will be well established and students can work in tandem to create any piece of art.

# Unit-I: Sketching Rapid sketches□ Role of proportion in drawing□ Drawing intuitively□ Unit-II. Exercise of different types of lines Differenttypes of lines, their nature, emotions and effects.□ Creation of art work using different types of lines. Unit-III. Drawing from still objects□ Drawing a still life using different objects of different sizes and shapes□ Concept of materials and shapes□ Unit 4. Drawing of foliage (plants) Study of nature using lines□ Creating volume through lines□ Use of pressure to create the required effect of light and shade□

### <u>Unit 5. Drawing from model</u>

	Drawing a human figure with rapid speed ☐ Ideal proportions of human body ☐ Examples of drawings of great masters ☐
Evalu	nation Methodology
	Individual's daily performance
*	Project Review: Mid Semester
	Project Submission: End of the Semester
	KFA155: PAINTING
Objec	etives
the co	ng is the ability of applying colour and tone to any given space. The knowledge of painting and ate handling of colours is the fundamental need for the development of an artist. The core learning of urse is to see colours in different lights and study the change that results according to the intensity of This course aims at developing a sense of harmony and the concepts of opposite and complimentary are and use them appropriately.
Desir	ed outcome of the course
handle artific	s module the students will be able to understand the concept of colours. They will be able to paint and the different kinds of colours and mediums. Students will be able to see the colours in natural as well as it light. They will be able to draw a conclusive opinion about the behaviour of colours in different comments.
List o	f Practicals
Unit 1	. Exercise with Basic colours
	Colours and their behaviour  Basic colours and different colour models  Unit
<u>2. Exe</u>	ercise with Secondary colours
	Secondary colours and their preparation using basic colours□

Number of secondary colours that can be made from basic colours Colour wheel, colour scheme
Unit 3. Exercise with Colours and tones
Importance of colours and tones using tones in creating an art object <u>Unit</u>
4. Exercise with Colour wheel
Types of Colour wheel Importance of colour wheel in understanding the nature and harmony among colours
Unit 5. Exercise with colours expression
Usage of colours to create an expression in art Effect of colours on moods□
Evaluation Methodology
☐ Individual's daily performance☐
Project Review: Mid Semester
Project Submission: End of the Semester□

### **KFA156: CLAY MODELING**

### **Objectives**

Art is to see an object in 2D as well as 3D perspective. Clay modelling will help the students to develop a three-dimensional vision. Students will be able to feel the objects and materials. This exercise is designed to develop a sense of proportion and volume in students.

### Desired outcome of the course

**List of Practicals:** 

**Evaluation Methodology** 

×

Individual's daily performance

Project Review: Mid Semester

Project Submission: End of the Semester

In this module, students will be able to understand the concept of modelling and volume in the given time and space. They will be able to make 2D and 3D miniatures of objects available in the nature and their surroundings. They will learn the different types of clays modelling and materials that are used for the same. They will develop skills to use the tools available, the quality of material, their behaviour, maintenance and durability. Their hand and eye will be synchronized with the proportion and volume of the object.

# Unit 1. Creating 3d form with clay Creation of simple 3D objects in clay Usage and preparation of clay for modelling Types of clay and usages Unit 2. Creating 3d form with Plaster of Creation of simple 2D and 3D objects using Plaster of Paris. Plaster of Paris and its behaviour Maintenance and durability of plaster of Paris (POP) □

### **KFA157: PRINT MAKING**

### **Objectives**

Printmaking is as ancient as human civilization. Print is about taking multiple impressions of similar objects or patterns. Print is a medium of expression used for communicating to masses. Students, in this module, will learn various types of printmaking techniques. They will also learn how prints are being created for the purpose of art and beauty. During this module, students will be able to understand the concept of print, its elements and principles involved in making a good print. Students will develop a sense of materials, methods and their usage.

### Desired outcome of the course

From this module, students will be able to understand the concept of Printmaking. They will be able to make prints, taking ideas from objects in nature and their surroundings. They will learn different types of printing techniques and their usage in everyday life. They will be able to understand the quality of prints, inks, papers, and their behaviour when they are applied on different surfaces. It will help students to understand print as a medium of artistic expression. They will also be able to create blocks and print them accordingly.

### **List of Practicals**

<u>Unit</u>	1. Making of mono prints with Lino cut
	Printing techniques  Exercise on creating a Lino cut mono print  □
<u>Unit</u> 2	2. Making block print with objects selected at random in one's environment
	Students will be encouraged to look for various objects around them and use their impressions as blocks for printing.  Students will collect objects of different textures both natural as well as man-made to use as blocks for printing.
<u>Unit</u> :	3. Making a stencil print
	Stencil and evolution of stencil printing  Stencil graffiti  Find stencils from everyday life
Evalı	uation Methodology
	Individual's daily performance  Project Review: Mid Semester  Project Submission: End of the Semester

### KFA158: Art Project

### **List of Practicals**

<u>Unit</u>	1. Creating 3d form with paper or cloth
□ □	Using paper and cloth to make different objects  Creation of forms from simple to complex  Behaviour and usage of materials  Choosing appropriate material based on the object
Unit 2	2. Creating 3d form with cardboard
□	Cardboard and its types  Use of cardboard to create a 3D object  Tools used in cardboard cutting  Creating a 2D or 3D object with the help of cardboard
Unit 3	3. Creating 3D form using Everyday Objects
	Choose everyday object.□
	Create utility or decorative object using everyday object□
Evalu	nation Methodology
<b>-</b>	Individual's daily performance  Project Review: Mid Semester  Project Submission: End of the Semester  □

### 1stYear: Semester – II (Common to Applied Art and Painting)

### KFA221: HISTORY AND APPRECIATION OF ART

### **Objective**

This module is designed to weave the concept of Art in the mind of a student. It is very important to understand the nature of art and its scope in the factual world. Art as an expression of thoughts, ideas and communication needs to be understood to make a solid foundation for the course.

### **Desired outcome of the course**

From this module, student shall be able to understand the immensity and role of art in their daily life. It shall establish the concept of Art in their consciousness. Students shall be acquainted with art from an expansive viewpoint. They shall be able to comprehend the elements and principles of art.

### **Syllabus**

Unit 1: What is Art
What is art? What is the relationship between Art and the Artist?□
The basic concept of beauty that is involved in the creation of Art. Art as an essential part of the real world. Art as a powerful medium of self-expression
Unit 2: Art concepts
Role of forms in art. Content and style as the essence of art. Meaning and definition of Iconography.
Unit 3: Theme and purpose of art□
Role of art in the society Relationship between art and nature as a complement to each other
Role of Imagination and fantasy as an important phenomenon for the creation of art

### Unit 4: The Visual Elements

	Lines Types of lines and their functions in art Formation of shapes and their role in art	
<b>*</b>	Importance of Light and colour  Usage of tones and textures to create an effective body of art work  Importance of space, time and motion in understanding art	
Unit 5	5: Principles of Design in Art	
	Definition and principles of design-o Balance o Proportion o Harmony o Emphasis o Rhythm	
<b>*</b>	Role of elements of design in creating an effective design  ☐	
Evalu	nation Methodology	
<b>—</b>	Written test  Assignments	
	KFA222: ENGLISH FOR PROFESSIONAL COMMUNICATION	
Objective of the Course:		
	To impart basic skills of communication in English through intensive practice to the first year UG students of engineering so as to enable them to function confidently and effectively in that language in the professional sphere of their life.	
Desir	red Entry Behaviour:	
Т	The student must have some basic command of English that is must be able to:	
	Write reasonably grammatically.□	
	Understand (if not use) at least some 2500 general-purpose worlds of English. $\square$	

	Use some 2000 (at least 1500) general-purpose words of English to express himself in
	writing and 1500 such words to talk about day to day events and experiences of life.
<b>x</b>	Understand slowly-delivered spoken material in Standard Indian English, and
4	Speak reasonably clearly (if not fluently) on routine matters with his fellow students. $\square$

### **Teaching Method:**

The topics must be covered essentially through plenty of examples; lecture classes must be conducted as lecture-cum-tutorial classes.

It is a course that aims to develop skills. It is therefore "practical" in orientation plenty of exercises of various kinds must be done by the students both inside and outside the classroom.

The teacher must not depend on a single or a set of two or three textbooks. He must choose his materials from diverse sources.

Keeping in view the requirements of his students, the teacher may have to prepare some teaching and exercise materials.

For practice in listening, good tape recorders can be used if the more advanced facilities (for example, language laboratory) are not available. In fact they can be used very fruitfully. The teacher must function as a creative monitor in the classroom.

Minimum time should be spent in teaching phonetic symbols, stress, information, etc. The aim should be to enable the student to find out for himself the correct pronunciation of s word from a learner's dictionary. In teaching speaking, emphasis should be on clarity, intelligibility and reasonable fluency rather than no "correct" pronunciation of words. Classroom presentation and group discussion sessions should be used to teach speaking.

### **Key concepts**

- **1. Language/Communication in context**: communication as a means of sharing information, speakers-listener and reader-writer relationship, process, importance, purpose, features of communication (accuracy, brevity, clarity and appropriateness in communication), barriers to communication, personal and interpersonal communication.
- **2. Writing Skills:** Learning words for general purpose, use through situations, sentence formation and use of given set of words in different contexts, usages of words in different tenses, aspect and moods, narrative in first, second and third person, meaning and usages of connectives, modifiers and models, phrasal verbs, connotations, various types of sentences and paragraphs, features of paragraph (cohesion and coherence).
- **3. Speaking Skills:** Speech and verbal communication, articulation (pronunciation of different sounds and words i.e. vowels, consonants, diphthongs, (IPA Chart) and words), paralinguistic features, formal informal speaking, extempore, discussion and presentation.
- **4. Reading Comprehension:** kinds and types of reading texts, basic steps to effective reading, abstracting, précis writing and summarizing taking example from different texts.
- **5. Listening Comprehension**: process and types of listening, steps of listening, barriers to listening, Fluency & speed, impact of pronunciation on comprehension through various texts, intelligent listening.

**Practice exercises I:** vocabulary and conversation exercises on the newly learnt words, transcription of words, understanding of tenses, enhancing conversation skills, reading & listening Comprehension of simple passages with exercises

**Practice exercises II:** conceptual inputs on presentation skills and conducting presentations.

Note: 90 days of working/teaching (including internal assessment)

### **KFA251: DESIGN**

### **Objectives**

Design is an arrangement of various forms and shapes for a specific purpose in a given space. It establishes the coordination of different forms with the available space in a harmonious way. Different articles, objects and shapes are used to create an arrangement and establish a relationship, which is pleasant to the eye of a viewer. During this module, student will be able to understand the concept of design, its elements and the principles involved in making a good design. This subject develops a sense of arrangement and movement in the mind of an artist.

### Desired outcome of the course

From this module, students will be able to understand the concept of design. They will be able to design, taking ideas from natural objects and their surroundings. They will learn different types of designs and their purpose in everyday life. They will be able to understand the quality of lines, shapes, forms and their behaviour when they are in proximity to each other. It will help students to create a sense of intuitive balance and rhythm with the help of designs. Students will be trained to use their eyes to see a good design. Their hand and eye will be synchronized and work in tandem to create any piece of art.

### **List of Practicals**

<u>Unit</u>	1.Composition using basic shapes
	Composition using different types of forms in Mono colour
	Creation of forms in different colour Relationship of colour and form Exercises on creating a design in square format using basic geometrical forms
Unit 2. Lines, forms and colours	
	Creation of a design using line, form and colours Implanting the above design into basic forms such as triangles, squares and circles. Using colour overlapping and transparency to create forms
<u>Unit</u>	3. Line, Forms, Colours, tones and textures
	Creation of a design using line forms, colours, tones and textures.  ☐
	Exercise to design using different objects available in the environment.  Using colour overlapping and transparency to create forms

### **Evaluation Methodology**

	Individual's daily performance  Project Review: Mid Semester  Project Submission: End of the Semester		
	KFA252: COMPUTERS GRAPHICS		
Objec	ctives		
usage	outer is a basic tool used in modern world. It is important for the students to have a basic learning and of computers. This will create a foundation for future use of graphic application and professional building. This learning is an asset for the artist to come at par with the modern technology. They does able to learn and work on the computer with ease.		
Desired outcome of the course			
From this module student will be able to understand computer technology used in the area of art. They will be able to operate computers and use them for their artistic purpose. They will learn the different types of basic software and graphic software, which are widely used for the graphical representation.			
List o	f Practicals		
Unit 1: Making PowerPoint presentation			
	Overview of Presentation		
	Use of PowerPoint  Different types of Slide Layouts  Applying Background and Design Templates		
	Transitions and Custom Animation Effects.  Printing Slides		
Unit 3: Microsoft office			
П	Making Office Document□		
	Formatting Documents Working with Page Setups, Tables and shapes		

	Formatting Tables, Header and Footer  Printing Procedures  Spell Checker and Thesaurus
Unit 4	: Basics Networking
	Introduction to Networks Advantages of Network Types of Network, Wireless, Bluetooth, Ethernet, VPN Cloud Computing Sharing devices, networks
Evaluation Methodology	
	Individual's daily performance  Project Review: Mid Semester  Project Submission: End of the Semester

### KFA253: GEOMETRICAL AND PERSPECTIVE DRAWING

### **Objectives**

Orthographic Projection is a way of drawing a 3D object from different perspectives. Usually a front, side and plane view are drawn so that a person looking at the drawing can perceive it from all the angles. Orthographic drawings are useful especially when a design has been developed to a stage where it is almost ready to manufacture. In this module student will be able to learn different types of geometrical planes and their usage. During this module student will be able to understand the concept of orthographic projections, their types, elements and principles involved. The course trains a student to present 3D visuals on 2D surfaces.

### **Desired outcome of the course**

From this module student will be able to understand the 2D and 3D projection. They will be able to draw orthographic projections of the objects available. They will learn the different types of planes and their purpose in professional and daily life. They will be able to understand the focal length, optics, projections, and their relationship with 2D objects.

### **List of Practicals**

### Unit 1. Draw Plan and elevation

Draw a simple geometrical plan of an object ☐ Draw elevation drawing ☐ Draw isometric projection of an object ☐
Make a project file from following units
Unit 2. Isometric projection
$\square$ Isometric projection and its need $\square$
Role of focal point and focal length  Relationship to orthographic projection  □
Unit 3. Parallel and Angular Perspective
☐ Parallel and Angular perspective and its need☐
Role of perspective in drawing  Relationship between different types of projections  □
<b>Evaluation Methodology</b>
☐ Individual's daily performance☐
Project Review: Mid Semester
Project Submission: End of the Semester \( \square\)

**KFA254: DRAWING** 

### **Objectives**

Drawing is the basis of any art course. The subject aims at establishing hand-eye coordination while drawing any object. During this module, the students are trained to understand the importance of proportion while drawing. This subject develops the sense of line, space and volume in the mind of an artist.

### **Desired outcome of the course**

From this module student will be able to understand the concept of line. They will be able to draw the objects using different types of lines. Students exhibit capacity to create volume with the help of lines and draw with intuitive attitude. Synchronization of hand and eye will be well established and students can work in tandem to create any piece of art.

List	List of Practicals:	
<u>Unit</u>	1: Sketching	
	Rapid sketches, Drawing intuitively□	
	Structural drawings	
<u>Unit</u>	2. Exercise of different types of lines	
	Different types of lines, their nature, emotions and effects.	
	Creation of drawing using different types of lines. ☐ Mood and expression in human form <u>Unit</u>	
<u>3. Dr</u>	rawing from still objects	
	Drawing a still life using different objects of different sizes and shapes Concept of materials and shapes Draw with light, shade and volume	
<u>Unit</u>	4. Drawing of foliage (plants)	
	Study of nature using lines Creating volume through lines	
	Use of pressure to create the required effect of light and shade Draw, showing the effect of light, shade and volume	
<u>Unit</u>	5. Drawing from model	
	Drawing a human figure with rapid speed□	
	Ideal proportions of human body  Examples of drawings of great masters. Anatomy and structure.  □	
<b>Evaluation Methodology</b>		
	Individual's daily performance  Project Review: Mid Semester  Project Submission: End of the Semester	

### **KFA255: PAINTING**

### **Objectives**

Painting is the ability of applying colour and tone to any given space. The knowledge of painting and accurate handling of colours is the fundamental need for the development of an artist. The core learning of the course is to see colours in different lights and study the change that results according to the intensity of light. This course aims at developing a sense of harmony and the concepts of opposite and complimentary colours and use them appropriately.

### **Desired outcome of the course**

In this module the students will be able to understand the concept of colours. They will be able to paint and handle different kinds of colours and mediums. Students will be able to see the colours in natural as well as artificial light. They will be able to draw a conclusive opinion about the behaviour of colours in different environments.

# **List of Practicals:** Unit 1. Painting from object using colours and tones Draw and paint an object with water colours Colour and its behaviour × Ways of using tones in creating an art object□ Unit 2. Landscape Draw landscape and paint with water colours Effect of light on properties of Unit 3. Transparency and opaqueness of colour Draw a colour wheel, Meaning and types of colour wheel Understanding colour wheel in relation to nature and harmony among colours × Overlapping, transparency and opacity of colours Importance of colours and tones Colour, hue and intensity

### <u>Unit 4. Use of opaque and tempera colours</u>

	Draw a still life in tempera ☐ and behaviour of colours in different opacities ☐	
	Use of colours to create volume and depth  Effect of colours on moods  □	
Evaluation Methodology		
	Individual's daily performance  ☐	
	Project Review: Mid Semester  Project Submission: End of the Semester	

**KFA256: CLAY MODELING** 

### **Objectives**

Art is to see an object in 2D as well as 3D perspective. Clay modeling will help the students to develop a three-dimensional vision. Students will be able to feel the objects and materials. This exercise is designed to develop a sense of proportion and volume in students.

### **Desired outcome of the course**

In this module, students will be able to understand the concept of modeling and volume in the given time and space. They will be able to make 2D and 3D miniatures of objects available in the nature and their surroundings. They will learn the different types of clays modeling and materials that are used for the same. They will develop skills to use the tools available, the quality of material, their behaviour, maintenance and durability. Their hand and eye will be synchronized with the proportion and volume of the object.

### **List of Practicals**

Unit 1. Creating 3d form with clay

Creation of complex 3D objects in clay
Usage and preparation of clay for
modeling

Ш	Types of clay available
	Use of different types of clay for different purposes□
<u>Unit</u>	2. Creating 3d form with Plaster of Paris
	Plaster of Paris and its behaviour  Creation of complex 2D and 3D objects using Plaster of Paris.  Maintenance and durability of plaster of Paris.  □
Eval	luation Methodology
	Individual's daily performance□
	Project Review: Mid Semester□ Project Submission: End of the Semester□

### **KFA257: PRINT MAKING**

### **Objectives**

Printmaking is as ancient as human civilization. Print is about taking multiple impressions of similar objects or patterns. Print is a medium of expression used for communicating to masses. Students, in this module, will learn various types of printmaking techniques. They will also learn how prints are being created for the purpose of art and beauty. During this module, students will be able to understand the concept of print, its elements and principles involved in making a good print. Students will develop a sense of materials, methods and their usage.

### **Desired outcome of the course**

From this module, students will be able to understand the concept of Printmaking. They will be able to make prints, taking ideas from objects in nature and their surroundings. They will learn different types of printing techniques and their usage in everyday life. They will be able to understand the quality of prints, inks, papers, and their behaviour when they are applied on different surfaces. It will help students to understand print as a medium of artistic expression. They will also be able to create blocks and print them accordingly.

### **List of Practicals:**

<u>Unit 1. Making of mono woodcut print</u>		
Print and its origin, Printing techniques ☐ Exercise on creating a mono print ☐		
Unit 2. Making of woodcut print in colour		
Woodcut colour printing process and tools  Exercise on woodcut printing with colour  □		
Unit 3. Making a print with silk screen		
□ Silkscreen colour printing process and tools □		
Types of silk screen printing  Exercise on silk screen printing with single and multi colour  □		
<b>Evaluation Methodology</b>		
☐ Individual's daily performance☐		
Project Review: Mid Semester  Project Submission: End of the Semester		
KFA258: ART PROJECT		
List of Practicals		
Unit 1. Creating 3d form with paper or cloth		
☐ Using paper and cloth to make different objects☐		
Creation of forms from simple to complex $\square$		
Behaviour and usage of materials		
Choosing appropriate material based on the object		
appropriate material outed on the object		

Unit 2. Creating 3d form with cardboard

×	Cardboard and its types
×	Use of cardboard to create a 3D object  Tools used in cardboard cutting  □
	Creating a 2D or 3D object with the help of cardboard □
<u>Unit</u> <u>í</u>	3. Creating 3D form using Everyday Objects Choose everyday object.□
	Create utility or decorative object using everyday object□
Unit 4. Composition using different materials	
	Creating a 2D or 3 D composition using different materials □
Evaluation Methodology	
	Individual's daily performance  Project Review: Mid Semester  □
4	Project Submission: End of the Semester□
