Analysis:

1. Average was taken for all the 11 criterias.

2. According to the survey students somehow lacked in communication skills

3. Students lacked in making efficient use of technology/ equipments at the worksplace.

4. Students should be made aware of the amalgamation of the latest technologies in the field of Computer Science and information technology.

5. Industry Exposure should be given to the students.

6. Students lacks basic communication Skills. Gap in exposure to the latest technologies used in the industries in industrial automation

Action Taken

1.Soft skill classes and technical communication skills are been given to students.

2.Based on the feedback from students for the CodeTantra platform, it was decided to conduct placement preparation classes related to DSA (Data Structure and Algorithm) and DBMS (Database Management System) on this platform.

3.It was also decided to start programming batches on Java and Python so that students are prepared for campus placement drive for the logic building and concept implementation.

4.The Department shall conduct a few guest lectures on the hot topics explaining the need and requirement of the latest technologies on demand.

5.Verbal and aptitude classes will be in the timetable in the 6th semester.
